Automation Test Report

Project: Signup Automation
Application URL: https://authorized-partner.vercel.app/
Automation Tool: Selenium WebDriver
Language: Java (JDK 21)

Test Summary

This automation validates the complete multi-step signup flow including account setup, OTP verification, agency details, professional experience, and final submission. All steps executed using dummy test data.

Test Result

Status: PASS

Notes

- Explicit waits used for stability
- Dynamic email and phone generation
- No real user data involved
